ABOUT

I am a visual artist with a passion for problem-solving using creative solutions. I bring a background in art to support my career as a Full Stack Web Developer to implement accessible and engaging web applications using clean, sensible code with specialization in front end conceptualization and functionality. I find inspiration in nature and enjoy volunteering with rescue horses.

WORK EXPERIENCE

Richmond Pro Lab · 2016 - Present
Full-Service Dept. Lab Technician

Create various photography products for a diverse clientele with custom needs on a timely basis. Frequently use programs such as Microsoft Excel for database entry, Adobe Photoshop, Darkroom, and various proprietary lab production programs to design composites and produce professional products for photographers nationally. Implement creative solutions to complete client jobs from start to finish while prioritizing efficiency. Consistently communicate and collaborate with clients and co-workers to support the company and our combined success.

Virginia Equine Welfare Society · 2019 - Present
Volunteer – Web Master, Marketing Chair Member & Shift Lead

Responsible for the creation and implementation of a meaningful website to support the mission of a non-profit horse rescue organization. Coordinate collaborative meetings among board members and stakeholders to achieve alignment on website design and functionality. Act as resident photographer for the organization. Deliver high-quality photographs for website use as well as for various community fundraising and social media efforts. Lead weekly team shifts of hands-on care of horses.

AmeriCorps · 2017
Interpretive Trails Project at Belle Isle State Park

Aided Chief Ranger of Visitor Experience, provided trail maintenance, and documented park to promote conservation. Researched, created, and implemented interpretive programs aimed at diverse audiences to educate about the conservation of natural resources. Designed marketing materials using Adobe InDesign to promote park programs. Provided outreach and support to recruit volunteers from the community. Assisted in the creation of the visitor's center. Created and maintained a mixed media web-based personal blog to promote Belle Isle State Park's mission.
